

## **STANDARD 20-YEAR PRODUCT WARRANTY**

Curecrete Distribution, Inc. warrants that after the specified sealing and hardening period the Ashford Formula treated floor will remain water-repellant, dustproof, hardened and abrasion resistant 20-years from the date the Ashford Formula is applied as specified by Curecrete Distribution, Inc.

## **5-Year Labor & 20-Year Product Warranty**

In addition to the standard 20-Year Product Warranty, Curecrete Distribution, Inc. partners with Ashford Formula Certified Applicators to ensure that the Ashford Formula is applied according to Curecrete Distribution, Inc.'s specifications and that quality control measures are maintained. If an Ashford Formula Certified Applicator applies the Ashford Formula on a given project, the Certified Applicator guarantees their application with a 5-Year Labor Warranty. To locate an Ashford Formula Certified Applicator in the United States and Canada, please contact your local field representative.

Qualifying floors are eligible for a warranty when the Ashford Formula is correctly applied to properly designed (concrete-mix) and placed concrete in accordance with recognized international and domestic concrete design and placement standards. The warranty does not apply to structural faults that occur due to faulty workmanship, improper design or cracking and failure of materials other than the Ashford Formula.
